DETAILED ACTION

Allowable Subject Matter

1. Claims 5-30 are allowed. These claims were previously numbered 91-¹¹⁶~~110~~.

2. The following is an examiner's statement of reasons for allowance: Applicant petitioned to withdraw the application from issue and requested a continuing examination to permit consideration of a new Information Disclosure Statement. The petition was subsequently granted.

Regarding independent claims 5 and 25, a review of prior art failed to make obvious, disclose or fairly suggest a scanning probe microscopy system for working with an object having a work surface whereby the probe tool is mounted in an aperture and a means for restricting gas flow into a region between the probe surface and the work surface of the object so that when the aperture is placed in fluid communication with a vacuum source, a microvacuum chamber is formed in the gap region surrounding/centered on the aperture and extending between the probe surface and work surface of the object.

Claims 6-24 and 26-30 are allowed by virtue of their dependence upon claims 5 and 25 respectively.

The drawings received on January 12, are approved.

Art Unit: 2881

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
